## ASKS MORROW TO NAME USELESS JOBS

Resolution in State Senate Calls For Information But Ed Sidesteps—Legislature

Frankfort, Ky., January 21.—Gov. Edwin P. Morrow was called upon, in a resolution offered in the Senate Tuesday by Senator Haynes Carter, a Democrat, to point out, without delay, the 314 "useless offices" he spoke of so frequently during the recent campaign.

An immediate passage of the resolution, under a suspension of rules, was urged by Senator Carter, but Senator Robert Antle, Republican, objected and moved that the resolution be referred to the Committee on Executive Affairs. This was done.

When Governor Morrow was told of the resolution of Senator Carter, he said: "If the Democrats will only their eyes on outgoing officers they keep their eyes on outgoing officers they will see that all platform pledges in regard to useless offices are being kept, and that the brass-topped boots are getting in their deadly work. Fifteen or 20 Deputy Fire Marshals already have been removed from the payroll of the state. A number of foresters soon are to be denied the right to roam the wilds of Kentucky. Two chauffeurs license inspectors have been removed."

Senator Jacob Metzger, of Newport, introduced a bill which would amend the present election laws to keep the polls open until 6 o'clock for the accommodation of voters, and increases fees of registration officers to \$5 a day. Polls close at 4 o'clock under the present law.

Authority of the State Fair Company to bond its plant in Louisville for \$300,000 for new permanent buildings is provided for in a bill offered by Senator Newton Bright.

Owing to the deplorable condition of the Institute for Feeble Minded, due entirely, members say, to a lack of funds, the Legislature appointed a joint committee to investigate and report at once the institution's needs. Senators Harlan, Miller, Bright, Branstetter and Burton and Representatives Huntsman, Dean, Stutler, Kauffman, Humphreys, Gossett and Thompson are to investigate.

Sensational charges were made that "children in full possession of all their mental faculties" have been transferred to the institute, and now are placed in constant contact and association with feeble-minded children, a number of whom are addicted to vicious practices.

It also is charged "that conditions of feeding and housing in the institute are not such as to promote the mental and physical welfare of its inmates."

Senator Jay Harlan, of Danville, offered measures covering a wide variety of subjects, foremost among which would make it a felony punishable by imprisonment to advocate or advise overthrow of the Government by force, or to print attack.

A bill providing for registration of motor vehicles by County Clerks rather than the State Department was offered by Senator A. A. Demunbrum.

The routine of the House was broken by a speech by former Governor James D. Black. He commended Speaker J. F. Bosworth for his fairness, and the House members for their evident earnestness to get down to business.

A bill offered today by Representative R. G. Bryson would define and punish criminal syndicalism.

Penalties for manufacturing, selling or transporting intoxicating liquors are provided for in a bill introduced by Representative Homer C. McLellen. The bill provides for the forfeiture of any property where whisky is made or sold from which it is transported, limits the amount to be obtained by prescription from a druggist to one pint in ten days and provides that extracts shall contain only one half of one percent alcohol.

An enabling act permitting the State Board of Health to form eight new bureaus was introduced by Representative Joseph Bazarus.

## NINE CHILDREN LEFT DESTITUTE

Nine little children, ranging in age from 1 to 16 years, deserted by their mother, who went to Ohio, she said, to find a place to take them, have been living alone in their home near Valley View for the past two weeks. They have been fed by neighbors but their condition became so destitute that neighbors petitioned county court here Tuesday for some action in the matter and the entire flock were brought before Judge Price Tuesday afternoon. They are the children of Mrs. Ida Cusick. Their father has been dead some time. The four youngest will be taken to the Kentucky Children's Home at Louisville. Other good homes are sought for the others, and in the meantime relatives will care for them. The children and their ages are Luther, aged 16; Nannie, aged 14; and who has cared for the little ones almost like a mother; Bart, aged 12; Grace, aged 10; Willie, aged 8; Jacob, aged 6; and twins, Carrie and Harry, aged 4; and G. T., aged one year. The case of the little ones is pitiable indeed, and but for the ministrations of kind hearted neighbors who took them food and fuel, they might have starved or frozen to death. Nothing has been heard from their mother since she left about two weeks ago, claiming that she was going to Ohio to look for work and a place to take them. She is understood to be at Hamilton, Ohio.

## DR. SOUTHWICK TO BE HERE TWO EVENINGS

The Lecture Course Committee of the Normal School was indeed fortunate when Dr. Henry Lawrence Southwick, President of Emerson College, of Boston, was secured for two evenings in Richmond. Dr. Southwick is a thorough Shakespearean scholar, and a superb elocutionist. He is more than a dramatic reader.

Only men of outstanding prominence in their respective fields of labor are considered when arranging the lecture course program at the Normal School. A small admission fee is charged. The amount of the admission charge is kept very low.

Hundreds of men and women in Richmond take advantage of the course each year and it is with pleasure that the numbers are announced to the public throughout the year by the committee. Dr. Southwick will be here Thursday and Friday nights.

## WINCHESTER LIKES OUR DR. CARPENTER

Dr. Homer W. Carpenter delighted everyone with the splendid address he delivered at Winchester Sunday night at the opening of a drive to raise \$3,000 for the Associated Charities' in the Clark county capital. The Winchester Sun said of it:

One of the most eloquent addresses ever delivered in Winchester was that of Dr. Homer Carpenter, of Richmond, on Sunday night at the annual meeting of the Associated Charities. Dr. Carpenter has a most charming platform personality, a most pleasing mellow, resonant voice, a grace and charm of manner that is fairly captivating and an expressive vocabulary unsurpassed, his choice of words being most remarkable, all of which go to make him one of the really eloquent orators of the country. His audience listened with almost breathless attention as under a spell, to the magic of his voice, and the power of his eloquence. Dr. Carpenter will always find a crowded house to greet him whenever he may come to Winchester.

## OPPOSES PERSHING FOR CHIEF OF STAFF

Secretary Baker Says Effect Would Be To Practically Abolish War Department

(By Associated Press)  
Washington, Jan. 21.—The army reorganization bill today was endorsed by Secretary Baker who appeared before the Senate military subcommittee. He asserted it is a "most statesman like attempt to reorganize the army ever made by any country." It provides for compulsory military training and the formation of one big army to be divided into a citizens' reserve army, a regular army of 280,000 men, and the national guard.

While disclaiming any "personal interest, or almost none," Baker opposed the provisions making General Pershing Chief of Staff. He said the effect would be to abolish the War Department as long as Pershing is on the active list.

(By Associated Press)  
Washington, Jan. 21.—A resolution declaring Acting Rear Admiral Sims in making public "official instructions of the most private character" affecting international relations deserved the condemnation of all Americans, was introduced in the Senate today by Senator Walsh, of Montana, a member of the naval committee. His request for immediate consideration was objected to by Republican Leader Lodge. He referred to Sims' recent letter asserting his instructions before leaving for Europe in 1917 were to the effect "not to let the British pull the wool over your eyes."

## LOUISVILLE WOMAN SHOT BY NEGRO

(By Associated Press)  
Louisville, Jan. 21.—Mrs. Eleanor Schaffner, shot last night, has a fighting chance for recovery, it is said at the city hospital today.

The woman asserts a negro leaped from shadows, ordered her to throw up her hands and when she threatened to scream, shot her. The bullet entered the abdomen and perforated her intestines in 16 places.

Her assailant escaped. Mrs. Schaffner was on her way home about 9 o'clock when the man suddenly accosted her. He drew a revolver and commanded her to hold up her hands. "I'm going to scream," she answered.

The negro opened fire and Mrs. Schaffner fell with bullet through her stomach. She was removed to a hospital and in her few moments of consciousness has been able to tell but little of the affair.

## CUMBERLAND PLAYS NORMAL TONIGHT

Cumberland College, of Williamsburg, is in Richmond to night to play a game of basketball with the Normal team.

The two teams met at Williamsburg early in December and Cumberland won decisively. The collegians are of a big rangy type and are well coached in the principles of the game. They are out to win the state college championship and are bound to be serious contenders for the title.

The Normal team is made up of green, inexperienced material for the most part but are rapidly overcoming this handicap and can be depended upon to fight hard for every point. A number of changes have been made in the line up of the Normal team since the holidays and coach McCoy is of the opinion that each man has now found his best position on the team and should do well the remainder of the season.

A referee from outside of Richmond has been secured and the management confidently expects a good, clean, close game.

The game is to be played in the Normal gymnasium at 8 o'clock tonight.

## ANOTHER BASKET BALL DOUBLEHEADER

The Winchester city high school will meet the Madison high school on Friday afternoon at 3 o'clock, at the Normal gymnasium. The match will be a double header. The boys are improving splendidly under the able coaching of Mr. Frank Gentry, of the Normal School. They played Nicholasville a close game, being defeated by the close margin of 2 points, the score being 10 to 8. The girls are also showing better form, but need lots of practice. The teams need to get a little more of the spirit of sacrifice in order to win. The admission will be 25 cents for both the boys and girls games.

## LOW COST ESTIMATE ON LANCASTER PIKE

State Engineer Says It Can Be Made Into Federal Highway For About \$75,000

District Road Engineer Dorsey of the State Highway Department, was in Madison and Garrard counties Tuesday, going over the proposed line of the Federal Highway, which will connect here with the Dixie Highway. Both Boyle and Garrard counties have asked Madison to join them in pushing through a splendid government built road that will be a permanent highway connecting the eastern and western divisions of the Dixie Highway.

Engineer Dorsey made a very reasonable estimate on the cost of Madison county's part, which is only 12 miles, extending from Richmond to Paint Lick. He believes that the work can be done in a manner satisfactory to government engineers for \$75,000. With the government paying half the cost, it has been proposed that the county pay half of the remainder and farm owners along the pike the other half of the balance.

Several prominent farmers have already agreed to pay at least \$2 an acre for whatever acreage they have along the pike. The building of a government highway would mean a great increase in valuation of land along it, and none would be more benefited than the land owners.

The Madison Fiscal Court will meet Saturday to take up the matter and some definite decision may be arrived at.

Old Friends are True Friends

The man, who loves a dog and a pipe, has two staunch friends that never fail him in good luck or in bad. They give all and ask nothing in return. Day by day they become nearer and dearer to him. The man who has not a dog and a pipe has missed two of the greatest things this good old world can give.

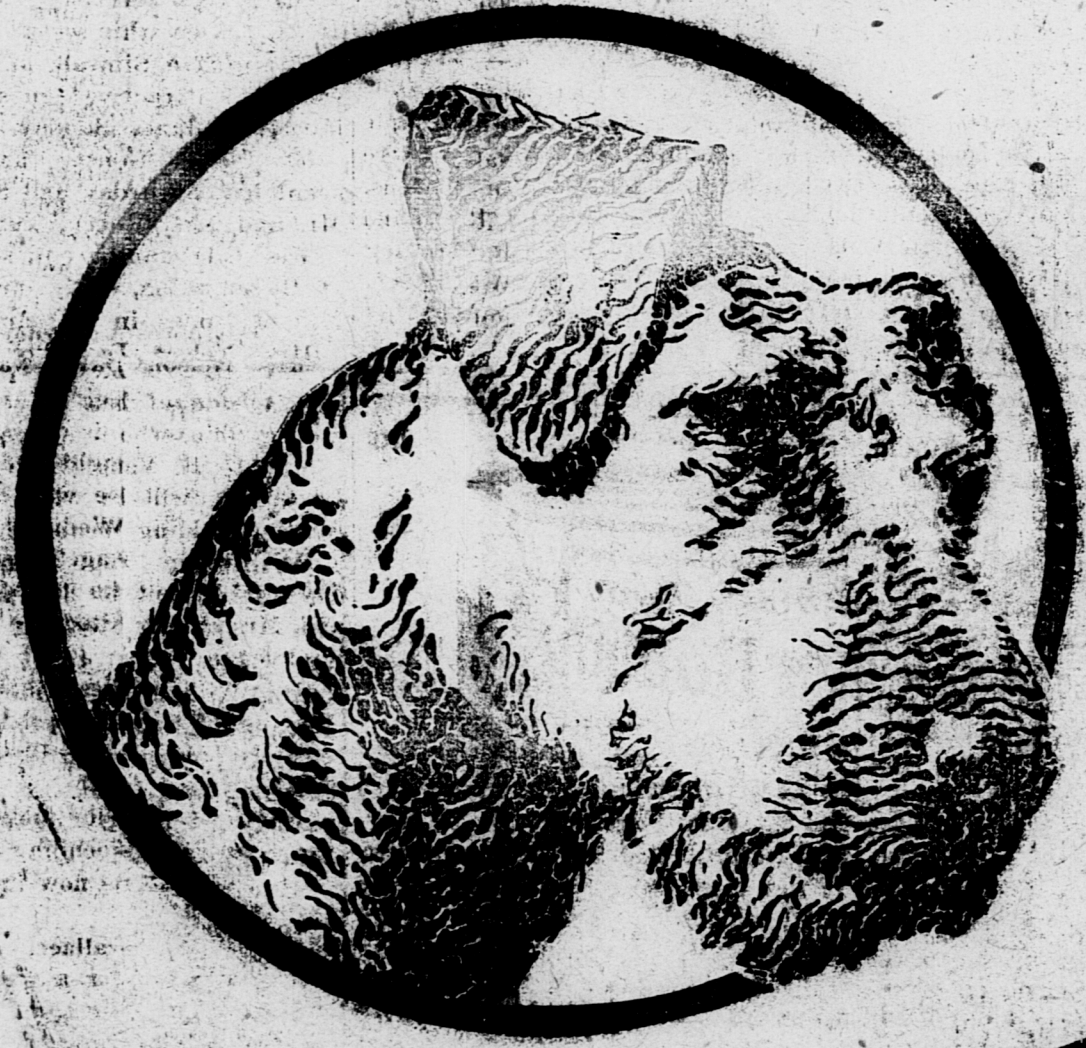

Every man who loves his pipe should know Velvet, the one tobacco that brings out all of a pipe's best and sweetest qualities. Your pipe takes on an added friendliness from Velvet's choice Kentucky leaf aged in the wood to a mellowness that's rich and smooth as cream.

Your pipe takes on a mild sweetness that is Velvet's natural tobacco sweetness. And around you hovers the real tobacco fragrance that all good pipe smokers love.

Never did Velvet Joe say a wiser, truer thing than this:

"Folks say you can't buy friendship. You can buy a dog and a pipe and good old Velvet-and I reckon no man ever had three better friends."

Liggett & Myers Tobacco Co.

There's a lot of pipe-loads in every big generous tin of Velvet, and every pipe-load is good tobacco at its best.

Stopping to read a suburban page, the musician met infrequently noted the effect of his performance spoiled by an awkward pause. From France now comes an invention which will obviate this annoyance, says Popular Mechanics Magazine. The music is printed, not on pages, but on a long strip, as is the practice with music for the player piano. Placed on motor-driven rolls, the music passes before the eyes of the player at any desired speed. The controlling lever is conveniently placed at one side.

### LALLEY LIGHT and POWER

Lalley Light is a complete unit—engine and generator—with 16-cell storage battery. It supplies ample electricity for lights, water pump, washing machines, refrigerator, vacuum cleaner, sewing machine, iron, etc.

### Lalley Light Savings

The real, important reason why Lalley Light was preferred by over 12,000 farmers in 1918, is, of course, Lalley savings.

The Lalley plant has been in work-a-day farm service for over ten years—piling up wonderful records of economy.

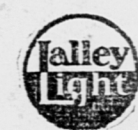

It furnishes better light and power at lower cost than you can otherwise buy.

It saves labor for every member of the family. It means fewer steps about the house and barns. It saves time for other work; our records show average savings of over 13 and in some cases higher than 60 hours a week.

It is an effective insurance against the perils of fire.

A great proportion of Lalley owners pay for their plants out of the first year's savings.

Let us prove to you in plain figures what Lalley savings mean in your annual expenses.

## IN CONSTANT USE BY PHYSICIANS EVERY DAY

### Medicinal Value of S. S. S. Is Fully Recognized

Almost every human ailment can be traced, one way or another, to impurities in the blood. So you cannot overestimate the importance of keeping your circulation built up, so that your heart will be constantly pumping rich, red, life-giving blood to all parts of the system. Any slight disorder or impurity that creeps into the blood is a source of danger, for every vital organ of the body depends upon the blood supply to properly perform its functions. It is quite true that practically every one is equally exposed to the attacks of disease. You are just as liable to be attacked as the man or woman sitting next to you on the street car. It all depends upon the condition of your blood. If it is thin and impoverished, and has been allowed to reach a low state by the accumulation of impurities, you have not sufficient vitality to resist these germ attacks, and they find a fertile field in your system to spread disease.

Over a hundred years ago the Indians made many excellent remedies and tonic from roots and herbs gathered from the forests. One of these formulas was handed down to the white man and for

more than fifty years has been used as S. S. S., which is recognized as the best known blood medicine on the market.

This fine old remedy is still made as of old from roots and herbs of proven medicinal value. In fact, physicians everywhere recognize the wonderful efficiency of these roots, and they are prescribed in some form or other almost daily.

And now after being in constant use for more than half a century, S. S. S. is more popular than ever. It is sold by practically every drug store in the land, and every druggist is well acquainted with its sterling merit, for they have seen its results.

S. S. S. is a very valuable agent in the treatment of Catarrh, Rheumatism, Eczema, Tetter boils, pimples, skin eruptions, malaria, and other disorders that come from blood impurities.

It is also without an equal as a general tonic and system builder. By its efficacy in cleansing the blood of impurities, it builds up the appetite and gives new life and vigor to the entire body.

You are invited to write for valuable literature and medical advice, which will be sent without cost. Address Chief Medical Adviser, Swift Laboratory, Atlanta.

## FORMER ICE PLANT MANAGER IS DEAD

News came from Miami, Florida, this morning in a night letter to Mr. and Mrs. James Deatherage of the Lexington pike, announcing the sudden death of their kinsman, Mr. W. B. Craven, who died suddenly from an attack of acute indigestion. Mr. Craven had been slightly ill of stomach trouble for several months, but was not thought by his physician to be in any danger. Less than six weeks ago he and his wife motored here from Long Beach, California and made a visit to Mr. and Mrs. Deatherage, motoring from here to Miami, where he died. He made his home in Richmond several years being manager of the Richmond Ice Company. He was a highly cultured gentleman, and was held in the highest esteem by a host of friends here, who will deplore his passing. Mr. Craven was a nephew of the late G. W. Ballew and Rev. A. J. Tribble. Arrangements for burial had not been made, when the telegram was sent. Loving sympathy is extended by numerous friends here.

## MILLIONS NEED PEPTO-MANGAN

In Many Homes Better Health  
Is Simply A Matter Of  
Better Blood

Pepto-Mangan Improves Blood

Composed Of Approved Blood  
Making Elements—Put Up In  
Liquid And Tablet Form

Are you tired and weak and "blue"? Do you say to yourself, "What's the use of living? What do I get out of life, dragging through this drab existence in this unhappy way?"

You don't feel well and you don't know why you have so little energy to do anything and you get all tired out before it is done. There are millions in busy America that have such feelings now and then, and they are to be pitied. But there is help. Unless some serious malady is at the bottom of their trouble, a few weeks of Pepto-Mangan will work a wonderful change. Pepto-Mangan puts new vigor into the blood, and the blood is the life fluid. With plenty of rich red blood coursing through one's body one is pretty likely to feel good and vigorous and be strong and look hearty.

Go to your druggist and ask for "Gude's Pepto-Mangan." Be sure to say "Gude's." If "Gude's" is not on the package it is not Pepto-Mangan. It is put up in both liquid and tablet form. Tell the druggist which you prefer. There is no difference in medicinal value. Adv.

### Income Tax Facts You Should Know

The man or woman whose income is from salary or wages has several things to consider in making out his or her income tax return. The full amount received for personal services must be returned as gross income. Direct expenses incurred in earning his compensation, however, are allowable deductions. For example a traveling man, selling on commission may deduct his railroad fare and amounts paid for hire of vehicles in calling on his customers as a "business expense," but not his hotel board, which is personal or living expense.

Salaries must be reported as income for the year in which they are received, regardless of when they are earned. Thus, the man who is paid on the 5th of the month and received his salary for the month of December, 1918, on January 5, 1919, will include the amount on his return for 1919. His salary for December, 1919, which is not received until January 5, 1920, need not be included in the 1919 income, although it was entirely earned during the year.

A salary or commission credited on an account and subject to withdrawal must be included as income. Bonuses of any form or profit-sharing must be included since they are additional compensation for services. A Christmas gift or other present from an employer is not taxable.

Compensation for personal service may be paid for partly in cash, partly in board and lodging. In this event fair value must be placed upon the room and meals and the amount reported as income by the employee.

Salaries of officers and employees of a state, county or municipal government are exempt from taxation. The exemption does not extend to federal employees of the government of the District of Columbia.

Compensation for personal services paid to directors and trustees of a corporation or society which itself is exempt from taxation is taxable income to the recipients. Witnesses in law suits are not employees of a state, and the fees received by such witnesses are subject to taxation.

#### A SPLENDID WOMAN GONE

Mrs. Amanda Benton departed this life on Jan. 3, 1920 at the home of her daughter, Mrs. Robert Ford of the Brassfield section. She was born, Jan. 16, 1842, was married to E. P. Benton Sept. 14, 1865, who preceded her to the grave 13 years. Four children were born to them, two of whom survive, Mrs. Robert Ford, and Mrs. T. A. Shelton, of Richmond, also two brothers J. M. and B. E. Covington, of Chandler, Mo. Besides these relatives, she leaves several grandchildren, Carl Todd, one of whom was too far away to come to see her during her illness. He will greatly miss her as she was his foster mother from a tiny babe until the tender years of manhood. Funeral services were conducted at the Speedwell Christian church by Rev. D. H. Mathers. A large crowd was present. Among those from a distance were: Judge and Mrs. Benton and son.

Mrs. Benton will be greatly missed by the church as she was one of the four charter members living. The deceased was one of those good pious women, who made the world better for having lived for a short time in it. She was a devoted christian, one whose light was always found shining.

"She left foot prints upon the Sands of time worthy of emulation" Long will her lie and deeds linger.

In the minds of her relatives and friends.

## Electric And Plumbing Company

Incorporated

is the answer to one of the needs in the development of present Richmond business opportunities. It not only comes from opportunity and necessity but presents itself to Richmond and Madison county as a real sign of progress, that kind of progress that will shortly characterize Richmond as the one live town of Ky., the home of a greater number of live and awake business enterprises as compared to any other town double her size in the Blue Grass region.

We come to Richmond and county patrons not as strangers but well known to all and as young men with worthy ambitions, and will endeavor to get your patronage strictly on our merits of value received and service rendered. We expect to render our town and county a real service, a service here-to-fore not rendered by any one nowhere do we find people more entitled to the very best than in our own midst and no place do we find a greater need nor a greater demand for the real, the new, the up to the minute necessities and conveniences of life than in Richmond and Madison county.

### The Electric Shop

We expect to have for you a complete assortment of all modern electric appliances, beautiful and artistic fixtures not in catalogues but in stock where you can get full satisfaction by personal examination.

We not only give you this complete stock from which you can make your selections but you get the full benefit of our judgment of several years of practical experience in helping and assisting you.

I have made and am still making a special study of my work and intend to have in Richmond a shop second to none in our state, a shop commensurate with the demands and ideals of our people. I have a competent crew of electricians capable of any and all installations of electric requirements and we will be the known headquarter of every thing in electricity.

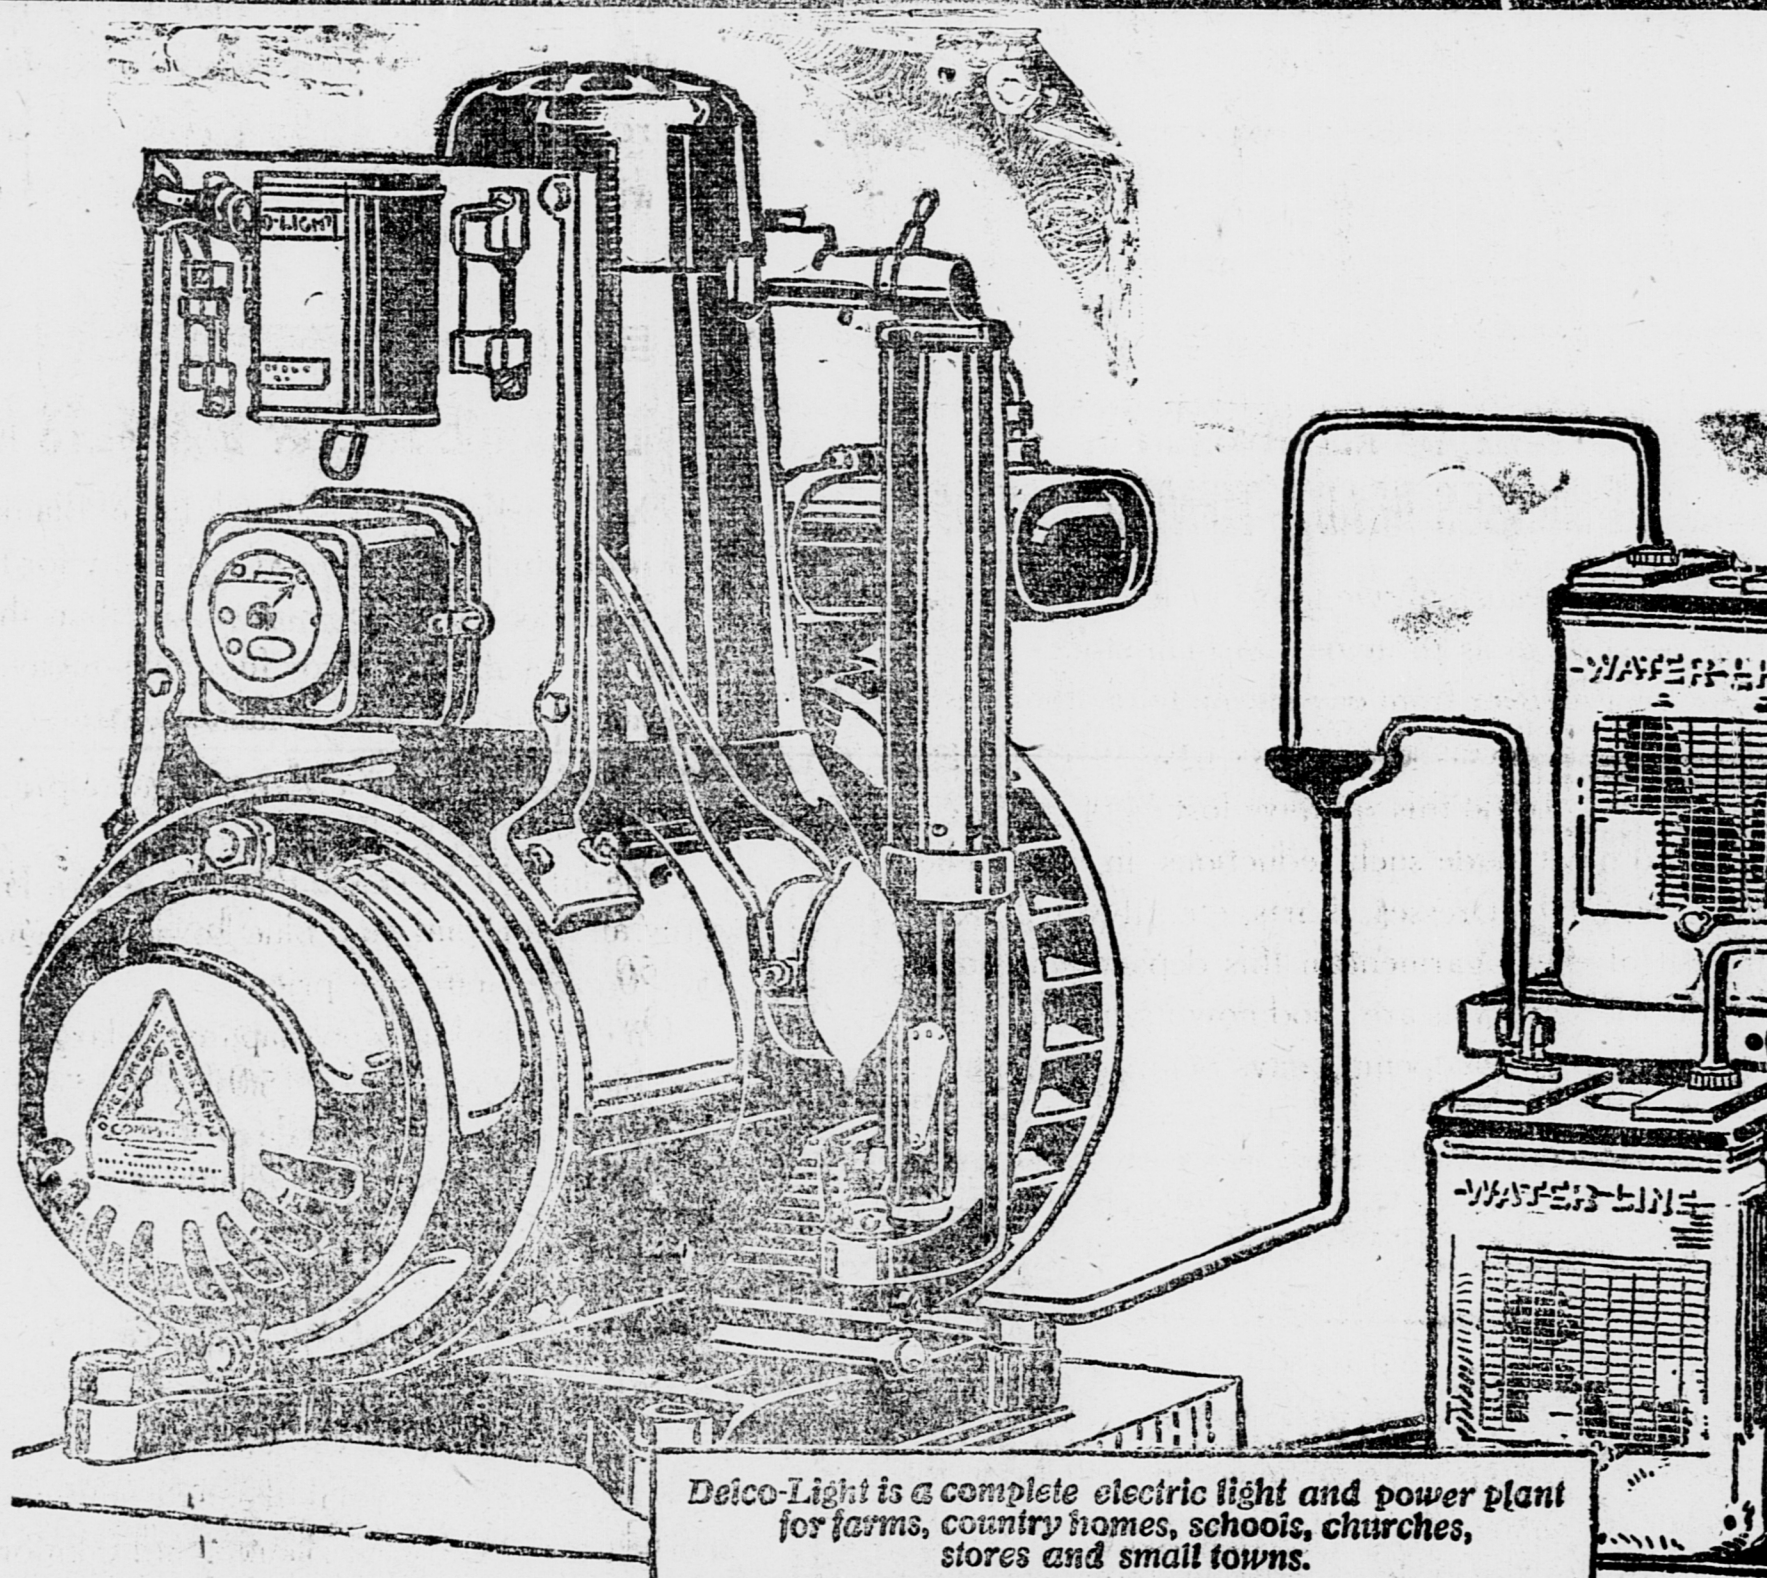

### The 'Delco-Light'

We are the sole agents for the world's famous farm and home electric light and power plants—complete in every detail, self cranking, air cooled, ball bearing, no belts, only one place to oil, a long life battery and operates on kerosene.

The Delco-Light is the realization of an ideal in the betterment of living and working conditions in rural districts. Today 85,000 homes enjoy this miracle of modern achievement supplanting the old lamp chimney, the lantern and the candle with the bright, clear electric light. No need to endanger your barn with fire. It also solves your feeding problems at night on these short days.

This wonderful plant also furnishes power for running water for all purposes thus making possible the modern bath room on the farm. It operates the washing machine, the churn, the cream separator, the vacuum sweeper and other conveniences heretofore enjoyed only in the city home. There is a satisfied user near you, ask him. Remember if it can be done with electricity, we have it.

—FRED DAVISON

Delco-Light is a complete electric light and power plant for farms, country homes, schools, churches, stores and small towns.

Anything in plumbing, everything in heating will also be found at our new shop. I have been working hard for several years in your town and county, ever striving to do each and every customer honest work for a reasonable price. Often times under handicap, sometimes with hardships, but always with one aim and purpose of sincere and honest service ever trying to fulfil my promises to the best of my ability.

I respectfully solicit your business in plumbing and we will have on the floor in our show room samples of every thing you may want in this line. We will offer our selections for your approval in all the various grades of material from the cheapest to the very best. Our shop will be headquarters for anything in material or installation.

No matter what your troubles are in my line call me up and I will smooth them all out for you.

THE UNIVERSAL CAR

## Buy Now While Deliveries Are Possible

Buy your Ford car now while deliveries are possible. There is only a limited, specified number of Ford cars allotted to this territory. You will be wise to buy one now while we can get cars to deliver. A signed order with us is your protection.

Even our small allotment of Ford cars is not shipped until we have bona-fide orders for them. This is because the demand for Ford cars all over the country is greater than the supply or production. So, don't depend on spring delivery.

Only so many Ford cars will be shipped into this territory; only so many will be able to get Ford cars. If you would be forehanded and plan ahead, you will have us deliver you a Ford car as soon as possible. Then you will have it to use whenever you want it.

The Ford is an all year utility—in your home or business. Its serviceability, its ease of operation, its low cost of maintenance has made it such. It will serve you the year around. Spring and summer, autumn and winter, it is your servant; always ready to do your bidding.

4,500 gallons of beer. The men are all married and Riley, Nantz and Robinson are owners of good mountains farms and men of means.

## Reducing the cost of your clothes

Copyright 1918 Hart Schaffner & Marx

You'd expect us, with costs of fine clothing, to "mark up" instead of down; many merchants believe that the price of merchandise should be based on the cost of replacement, rather than on what was paid for it.

If we followed that policy we certainly wouldn't reduce prices on any of these fine suits and overcoats from Hart Schaffner & Marx.

But many of our goods were delayed; labor delays, weavers' delays, caused very slow deliveries. We're just getting things that we should have had months ago.

We want to sell them now; we're willing, in spite of rising costs, to sell them at a smaller margin of profit than normal. We want our customers to get the benefit of it. We want to make friends for this store. Get yours today.

Boys' suits at reduced prices. Overcoats, neckwear, sweaters. Bring your boys to this store.

Cold, Feed, Building Material

Lignite in Syria.  
Coal, in the ordinary sense of the word, does not exist in Syria, but there are beds of lignite containing traces of vegetable organisms. The principal beds are in the Mettu; that of Cornail, which has been worked; and in the district of Jezzine, those of Niha and Hattour to the east of Sidon. This is very extensive but shallow and close to the surface. At Jezzine amber, yellow and black, is abundant.—Christian Science Monitor.

Like to Try It?  
Powdered jet mixed with wine was considered a toothache remedy by the Greeks.

Alas, Yes!  
Most of the means of making easy money afford similar means of losing it.—Boston Transcript.

## This is National Thrift Week!

GET INTO THE SPIRIT! Join hands with this wonderful plan for a week of National Thrift. Our government suggests systematic saving and spending at this time when money is plentiful and the purchasing power of a dollar at a lower ebb than ever before.

For example: The dollar of today will not purchase the merchandise or service that the dollar of a year ago would command. Experts claim that the peak of high prices has been reached and that the value of a dollar will INCREASE.

This means that your dollar of today may be worth much more in a year from now and your saving will be richly rewarded.

## Unusual Value—In Tires for Small Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3-, 30x3 1/2- and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind.

Get this unusual tire value to enjoy on your Ford, Chevrolet, Dorr Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x3 1/2 Goodyear Double-Cure  
Fabric, All-Weather Tread..... \$20.00

30x3 1/2 Goodyear Single-Cure  
Fabric, Anti-Skid Tread..... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water—\$3.90 proof bag.
